INTERMITTENT CATHETERIZATION

Actreen® Technology

Ready to use
Sterile
• No additional water required
• Hydrophilic lubricant: water and glycerine based formula maintained throughout catheterization.
• No risk of drying out during catheterization

No touch system thanks to its protective sheet
• Catheter has no direct contact with hands and fingers
• Minimize risk of infection

Actreen® Glys Set

Set for active independent life style
Actreen® Glys Set is a ready-to-use sterile set containing a lubricated catheter connected to a graduated bag

Convenient in any circumstances
• Ready and easy to use: Compact and lightweight

Anti-reflux valve
• No risk of urine flowback
• Easy emptying: Tear-off corner and 2 eyelets
• Transparent and graduated collecting bag: approximate volume of urine quantity can be easily monitored

Important

> NO RISK OF RESIDUE
When the catheter is immersed in synthetic urine, Actreen® does not present any visually detectable particules in suspension[2].
[2] B. Braun test report 72AK0104.3

> NO EFFECT ON SPERM MOBILITY
An in vitro comparative study performed by an external expert demonstrates that Actreen® has negligibly toxicological effect on sperm motility and motion. [1]
